

REQUIRED STEPS BEFORE RIDING:

Before you start:

Make sure the on/off switch is **OFF** before connecting the battery terminals.

Step 1

Connect and position battery wires as shown before installing front plate cover.

NOTE: A spark may occur when you connect the battery terminals, this is normal.

OVER ➤

Step 2

Install cover plate with 4 screws and plastic washers included.

NOTE: Top of metal plate should slide under metal housing as shown in image 2 below, bottom of metal plate should lay flat on top of metal housing as shown in image 3 & 4.

Step 3

Charge your Mini Bike.

See owner's manual for charging your Mini Bike for the 1st time.

Step 4

Assemble your Mini Bike.

See owner's manual for assembly instructions.

**Have
Some
Fun.**
